

## INTERCONNECTION SET 1kV

type 156 001

This device is used to create substitute conductive connection on overhead low voltage (VN) line, during reparation and maintainance.

### SPECIFICATION

Connection:

- line wire       $\varnothing$  5 - 15 mm

Highest voltage	1 kV
Current capacity	100 A/2hod
Rope's cross-section	10 mm <sup>2</sup>
Length of interconnection	1,5 m
Weight	2 kg
Product satisfy	ČSN EN 60900
